

Brivo® Online Access Control Comparison Sheet

Which option is right for you?

ACS WebService® Web-hosted Access Control	ACS OnSite Aparato™ Appliance-based Access Control	ACS OnSite® Embedded IP Access Control
<p>Great for multiple or single site applications</p>	<p>For larger, more complex applications when on-site storage of data is required</p>	<p>For single sites, particularly if on-site storage of data is required</p>
<p>Rely on geographically dispersed, redundant, 24/7 datacenters for worry-free backups, archiving, and storage</p>	<p>Maintain all your data within your own corporate network</p>	<p>On-site system suited for one facility, even if the facility houses more than one business</p>
<p>Link remote sites together under one seamless system</p>	<p>Capable of covering multiple facilities, including geographically dispersed sites</p>	<p>Quick control of doors from intuitive, comprehensive dashboard</p>
<p>Manage multiple locations without adding network infrastructure, but still enjoy centralized control</p>	<p>Manage large systems (up to 1,000 doors) from a single centralized account using any Web browser</p>	<p>Easy to set up and maintain, with minimal on-site IT support</p>
<p>New updates and upgrades are automatic with no extra costs</p>	<p>Unsurpassed data security; FIPS 140-2 validated embedded encryption modules with ACS5000-A panels</p>	<p>Can be migrated to ACS WebService—hassle-free scalability to meet your changing needs</p>

Brivo® Online Access Control

Feature	ACS WebService®	ACS OnSite Aparato™	ACS OnSite®
Number of readers	Unlimited per system	1,000 per system	Up to 30
Number of input points	Unlimited per system	30,000 per system	Up to 120
Number of auxiliary outputs	Unlimited per system	30,000 per system	Up to 118
Number of accounts	Unlimited	Up to 50	Up to 16
Number of user-definable fields	60	Unlimited	10
Firmware upgrades	Automatic	Downloadable	Downloadable
Authentication and encryption	X509 Client certification and 128-bit SSL	X509 Client certification, 128-bit SSL, FIPS 140-2 with ACS5000-A panels, fully encrypted database, Trusted Platform Module (TPM)	128-bit SSL
Real-time reporting and data archiving	Yes	Yes	Yes
Notifications	Yes	Yes	Yes
Alarm shunting	Yes	Yes	Yes
Card memory	25,000 Users/credentials per panel	500,002 Users/credentials per system	5,000 Users/credentials per panel
Event buffering/History	1 year online/1 year archive	10,000,000 events	50,000 events
Elevator control	Yes	Yes	
DVR integration	Yes	Yes	
OVR WebService™ integration	Yes		
Integrated badge design and badge printing	Yes	Yes	
Administration	Tiered	Role-based	
Antipassback	Yes	Yes	
User reports	Yes	Yes	Yes
Automatic backup capability	Yes	Yes	Yes
Group activated schedules	Yes	Yes	Yes
Communication to host via cellular network	Included with ACS5000-WG control panel		
Graphic maps		Yes	
DataSync	Yes	Yes	Yes
ODBC		Yes
