

Property Management, Simplified

Cloud-based security opens new doors for property managers

Controlling tenant access and entry points within multiple facilities can be challenging. With Brivo's cloud-based access control solutions, you can build a secure infrastructure that's as versatile and varying as your environment. Brivo's cloud security offers property managers the unprecedented flexibility to deploy high quality security anywhere—rapidly, easily and cost effectively.

Tenant Satisfaction

Your tenants will enjoy managing users and access points through Brivo's easy-to-use, scalable and reliable system

Risk Avoidance

Brivo's cloud solutions are multi-tenant and hosted in highly reliable data centers with built-in redundancy

Prompt & Pro-Active Service

On-demand remote administration allows immediate service
Set up customized rules for targeted notifications to meet your needs

Maximized ROI

Brivo's Software as a Service (SaaS) model allows you to tailor your access control and video system to your changing needs
Adding and removing users or locations is simple, and you only pay for what you use

Open Platform

Our solutions are compatible with industry-standard technology so you can combine systems and streamline data to better manage your business

Long Lasting Partnership

Brivo scales to your changing business needs – We're ready to deliver the security you need, when you need it

Anytime, Anywhere Control
Less IT
Less Cost
Maximized Security

Scalability

Add or remove suites or tenants

Tenant Self Service

Tenants can manage access points

Anytime Anywhere Control

Tenant locked out?
Handle from your smartphone

"Brivo is the easiest interface I've seen. It's a one-stop shop for creating badges and for immediate control and reporting over all access events. Plus, we don't have to have one 'expert' on a dedicated computer for the system—we can get other staff up and running on it fairly quickly."

James J. Elliott
The RADCO Companies

"The system is great. Training is easy and we can customize it to our needs—it really makes a difference in improving the management of this very busy, diverse property."

Summer Jridi
North Bethesda Market

Eliminate the Servers, Eliminate the Hassles Maximize the Flexibility

"Without the Brivo system, I simply could not effectively manage this number of people. Our telephone entry system was too time consuming and inefficient. Now, we have control from one location. It makes my day to day easier, and I'm much more productive. We are constantly getting called by our residents and guests, and now it's easy to take care of their access needs."

Pam Basilicato
Omni Management for Barefoot Resort

Cloud Security: Visualizing A Better Solution

When introduced in 2001, Brivo's cloud-based physical access control system was a truly revolutionary solution—after a decade of evolution and innovation, it still is.

The Product

ACS WebService® Cloud-based access control solution that provides reliable, real time control of your facilities. Leverages the power and versatility of the cloud to provide powerful, scalable, secure solutions.
