\*Special WARNING for Breakaway Lanyards—Breakaway performance will vary and lanyards will not break away under all conditions. The male/female part pull force specification for round breakaways is 3-11 lb. under tested conditions per M-3-QA-0167. The male/female part pull force specification for flat standard breakaways is 4-10 lb. under test conditions per M-3-QA-0167. A full description of the M-3-QA-0167 test procedure can be provided upon request. Not recommended for use around moving objects or playgrounds.

# VISITOR IDENTIFICATION

Having a visitor identification program can help identify who's a visitor and their access amid concerns of the COVID-19 event. Protecting medical workers and patients at check-in is the first line of defense. It's critical to have a handle on who walks into a facility and how long they've been there.

TEMPbadge™ provides visual proof that a visitor is allowed to be on-premises, how long they can be there, and prevents unauthorized re-entry at a later time. The expiring technology in the badge shows a clear visual indicator that a visitor is no longer authorized after their allotment. They're easy to use, allowing regular or temporary staff to quickly identify visitors.

## ONEstep QUICK-TAB Expiring Badge

Valid for one full day before displaying an identifiable "VOID". Print or write on badge, fold bottom edge in, and the badge is activated.

Eliminates the hassle of collecting and keeping track of badges when visitors leave. Readily identify unauthorized people after the badge expires. Customization available.

For added security, the badge will display a red-colored "VOID" after the visitor has been on site for the allotted time.

# SCREENED BADGES

In response to COVID-19, we have created simple, bright badges that staff wear to easily identify they have been screened. The fluorescent green or yellow badges come in two sizes, both bound in a wire-bound book for ease of use at entry points. Once staff members have completed the facility's "Screening" process, they receive a dated badge to wear for the duration of their shift. Other staff and patients have peace of mind seeing that each person has been screened that day.

Our new **Visitor Badge** designs can help you identify and contact your visitors. Both come in books that make it easy to **Sign-In** and **Badge** visitors.

Top part creates **Visitor Badge**

**Confidential record** of visitor below

1. Add **SCREENED** to your badges to remind patients, family members, and your staff that visitors have been screened prior to being allowed access to the hospital. Badges **change color overnight** so they can't be reused.

**TAB-Expiring Badge – 500 Badges per book**  
**\$165** (includes color logo)

2. Collect **Visitor Contact Information** (phone number or email) when they sign in so you have a way to reach them in the event that requires Contact Tracing.

**TAB-Expiring with Contact Stub – 400 Badges per book**  
**\$165** (includes color logo)

Add **Expiring DOT SETS** to your current badges to indicate that visitors have been screened that day.

**\$62 for 1,000 DOT SETS**  
 (includes both front and back piece)

The sticker **changes color overnight**, so the visitor badge can't be reused

# FLUORESCENT SCREENED BADGES

Staff is screened at the beginning of their shift and given a badge to wear.

# ANTI-MICROBIAL BREAKAWAY LANYARDS

The demand for anti-microbial products is increasing. People are more conscious of the germs<sup>^</sup> in our environment and want to minimize their impact. This 5/8" flat MicroWeave lanyard material contains nanoparticle-coated fibers that inhibit the growth of germs<sup>^</sup> and kill odor-causing bacteria. Ideal for environments where germs are most likely to spread, such as hospitals, schools, and events. Available only with a breakaway\* and features a wide no-twist plastic hook end-fitting.

## FEATURES & BENEFITS

- **Anti-Microbial Material**  
Inhibits the growth of germs<sup>^</sup>
- **Breakaway\***  
Quick unlocking release
- **Wide No-Twist Plastic Hook Attachment**  
Securely fasten your ID badge to stay forward facing

## SPECIFICATIONS

**Width:** 5/8" (20mm)  
**Cut Length:** 36" (914mm)  
**MOQ:** 100 lanyards
